

## Undergraduate Internships at Texas Analog Center for Excellence

The 550 billion dollars per year integrated circuits industry is evolving into an analog digital mixed signal industry. Recognizing this, Texas Governor Rick Perry announced the creation of TxACE in October 2008. The center is a \$50 million collaboration among the leading semiconductor organizations. TxACE is committed to holistic collaborative analog and mixed signal circuit research that creates revolutionary integrated circuits and systems driven by both great societal needs and industry. Visit <https://centers.utdallas.edu/txace/> to find more about TxACE.

### Announcement

TxACE has openings for multiple internship positions. It is looking for highly motivated undergraduate students who have strong interest in analog and mixed signal electronics, and related areas. The candidate should have substantial fundamentals and the ability to think independently. The candidate must be able to work effectively under the direct supervision of a TxACE affiliated faculty in his/her research group.

### Qualifications

Internships are available to all undergraduates at The Erik Jonsson School of Engineering and Computer Science. Interested applicants must send their most recent resume to Donna Kuchinski ([djk091000@utdallas.edu](mailto:djk091000@utdallas.edu)) and Dr. Bilal Akin ([bilal.akin@utdallas.edu](mailto:bilal.akin@utdallas.edu)). Each resume must include **(i)** Cumulative GPA, **(ii)** courses taken in Engineering and the corresponding grades, **(iii)** names of two Jonsson School instructors who can serve as references, and **(iv)** visa status (e.g., US citizen, permanent resident, F-1). Application deadline is **30 June 2023**.

### Duration and Location

The internship duration is two full semesters. You have two options: Start in Fall 2023 and complete either in Spring 24' or Summer 24'.

\* Students will be paid \$12.50/hour and can work up to 400 hours total. Students must be in Texas to be paid as an hourly employee due to tax laws.
